

# THE METAL INDUSTRY

WITH WHICH ARE INCORPORATED  
THE ALUMINUM WORLD, THE BRASS FOUNDER AND FINISHER AND ELECTRO-PLATERS REVIEW  
*A TRADE JOURNAL RELATING TO THE NON-FERROUS METALS AND ALLOYS.*

---

## Index of Volume 5

---

JANUARY—DECEMBER, 1907

---

THE METAL INDUSTRY PUBLISHING COMPANY

61 BEEKMAN STREET, NEW YORK

# INDEX

Articles Marked with a \* are Illustrated.

	Page.
<b>A.</b>	
Alcohol and Lacquers, Denatured.....	70
Alloy, Original Gun Metal.....	229
*Alloys for Railway Bearings.....	199
Alloys, Gas Lighting.....	120
Alloys, Improving Aluminum, by Heating and Chilling.....	333
Alloys, Influence of Metals on Working of.....	312
*Alloys, Lead.....	9
Alloys, Some New German.....	184
Aluminum Alloys, Method of Casting.....	234
Aluminum, A Model, Town.....	100
Aluminum as a Protection against Mercury Poisoning.....	152
Aluminum, Copper Plating.....	88
Aluminum Dipping.....	6
Aluminum for Automobiles.....	235
Aluminum Industry, The.....	16
Aluminum in India, New Source of.....	334
Aluminum in Spain.....	358
Aluminum; Its Production and Consumption.....	263
Aluminum Manufactures in India.....	169
Aluminum Products, Drawback on.....	137
Aluminum, Recovering, from Skimmings.....	100
Aluminum Works, Capacity of American.....	264
American Brass Founders' Association, 115, 179, 297	
First Convention of.....	163
Ammeter in Silver Plating, The Neglected.....	332
Ammonia, Use of, in the Soap Compound Cleaning Solution.....	105
*Anode Record, A remarkable.....	237
*Anode, The Silverite.....	144
Anodes, Basket.....	49
Antimony Trade, Japanese.....	334
*Articles, Making Hollow Metal.....	70
*Art Jewelry in Birmingham.....	205
*Art Metal Work, Early Irish.....	227
*Art Metal Work on the Lusitania.....	323
Assay Work, Birmingham.....	230
Association for Platers and Polishers, Proposed.....	242
<b>Authors:</b>	
Burr, S. D. V. American Metal Trade Conditions for the Year 1906.....	11
Burrows, Lincoln. *Lead Alloys.....	9
Burrows, Lincoln. Soldering Salts.....	110
Churchill, W. L. *Automatic Conveying in Plating Operations.....	42
Churchill, W. L. Meaning of Tests in Galvanizing.....	235
Churchill, W. L. Re-Tinning Founts of Tubular Lanterns.....	235
Churchill, W. L. Sluggish Action of Molten Tin.....	264
Churchill, W. L. Tinning and Galvanizing Iron Castings.....	172
Clare, Thomas. *The Manufacture of German Silver for Flat Ware.....	3
Cook, C. W. *Manufacture of German Silver Flat Ware.....	40
Delamothé, L. G. *Possibilities of Electro-Metallization.....	170
Dimes, Joseph. Carbon Bisulphide in Silver Solutions.....	41
Dimes, Joseph. Deposition of Metals on Non-Conducting Surfaces.....	76
Dimes, Joseph. *Silver Deposit on Glass and Porcelain.....	6
Eggleston, D. C. *Jewelry Manufacturing Costs.....	328
Fairlie, Andrew M. *Lake Copper versus Electrolytic.....	1, 43, 71, 103, 138
Fairlie, Andrew M. Production of Spelter and Brass in the U. S.....	201
Frost, F. J. English Method of Gilding the Inside of Silver Cups, etc.....	365
Frost, F. J. Method of Refinishing Ormolu Gilt Ware.....	142
Frost, F. J. Method of Silver Finishing in Birmingham, Eng.....	106
Frost, Frederick J. Rose Gilding.....	41
Frost, F. J. Solution for Removing Fire Scale from Gold.....	268
Galvano, George J. *The Hot Galvanizing Process.....	75
Hart, Jos. H. Economy in Melting.....	326
Hirschmann, Wm. *Quickest Method of Grinding Valves.....	300
Horton, J. British Brass, Silver and Jewelry Trade for 1906.....	11
Horton, J. *British Hall Marking.....	107
Johnson, D. A. *Crucible Tongs.....	362
Johnson, J. L. *Brass Castings.....	36
Kane, W. H. The S. H. Crucible Furnace.....	145
Lemal, D. J. A Contribution to the Cire Perdue Process.....	236
Lemal, D. J. More on the Cire Perdue Process.....	295
Louis, S. *Etched Metal and Colored Glass Novelties.....	67
Martin, H. J. Heat Treatment of Copper and Direct Rolling.....	77
Nelly, W. N. *Casting of Artistic Work.....	35
Niederer, John G. *Brass and Bronze Ingot Metal.....	294
Niederer, John G. *Early Cire Perdue Work in France and Its History in Our Own Country.....	195

	Page.
Niederer, John G. *Tests Showing Strength of Brass and Iron Screws.....	265
Proctor, C. H. *Artistic Metal Goods Produced in Slush Molds.....	355
Proctor, C. H. Brass Plating Buckles.....	203
Proctor, Chas. H. Denatured Alcohol and Lacquers.....	70
Proctor, C. H. Depositing Brass upon Small Articles.....	366
Proctor, Charles H. Dipping Aluminum.....	6
Proctor, C. H. Gilding Key Chains.....	301
Proctor, C. H. Hurtful Effect of Over-Concentration in Plating Baths.....	141
Proctor, C. H. Making Double Nickel Salts.....	302
Proctor, C. H. Nickel Plating Articles of Zinc.....	268
Proctor, C. H. Oxidizing Small Tin Articles.....	237
Proctor, C. H. Parabola or Smoke Black Finish.....	296
Proctor, C. H. Production of Dense Nickel.....	142
Proctor, Charles H. *Refinishing of Chandeliers, Andirons and Brass and Copper Goods in General.....	8
Proctor, C. H. Removal of Oxides with Dilute Hydrochloric Acid.....	171
Proctor, C. H. Simple Production of the Brush Brass Finish.....	106
Proctor, C. H. Smoke Finish or Parabola Black.....	171
Proctor, C. H. To Produce Black upon Aluminum.....	203
Proctor, C. H. Use of Ammonia in Soap Compound Cleaning Solution.....	105
Quigley, W. S. The Brass Foundry.....	357
Reardon, W. J. Parting Compounds.....	202
Stedman, P. H. A Cheap and Useful Receipt for Bronze Dip.....	236
Taylor, L. E. *Old Sheffield Plate Trade Marks.....	267
Taylor, L. E. *Sheffield Plate and Electroplate.....	364
Thompson, George O. Cleaner for Small Work.....	105
Thompson, George O. Hardener and Brightener for Copper Solutions.....	171
Wadsworth, George H. *The Care of Core Machines.....	73
Waterhouse, G. B. Coke: Its Manufacture and Application to Foundry Purposes.....	69
*Automatic Conveying in Plating Operations.....	4, 42
<b>B.</b>	
*Barrel, Tumbling.....	300
*Bassite.....	336
Baths, Hurtful Effect of Over-Concentration in Plating.....	141
Bearing Metal, A German.....	344
*Bearings, Alloys for Railway.....	199
*Belts, Endless Polishing.....	144
*Birmingham Metal Works, Ancient.....	298
Black upon Aluminum, To Produce.....	203
*Blocks, High Speed Triplex.....	303
*Blower and Sand Blast, Pressure.....	80
<b>Books, New:</b>	
American Pattern Shop Practice.....	202
Brasses of England, The.....	244
Chemical Reagents; Their Purity and Tests.....	276
Crucibles; Their Care and Use.....	116
Goldsmiths' and Silversmiths' Work.....	340
Manufacture of Metallic Articles Electrolytically.....	18
Practical Lettering.....	52
Practical Metal Turning.....	84
Study in Graphite.....	180
*Boric Acid Outfit, The Boland.....	176
Brass Association, The New.....	115, 134, 179
Brass, Effects of Composition on the Workability of.....	376
*Brass Foundry, Complete Reinforced Concrete.....	131
Brass Foundry, The.....	357
Brass, Fumes from Melting.....	358
Brass, Production of, in the U. S.....	201
Brass Working Family, An Ancient.....	359
*Bristol Electric Furnace.....	79
Britannia Metal Plated Ware, Refinishing.....	197
British Aluminum Company.....	197
Bronze for Automobiles.....	235
*Bronze Tablets for Baltimore.....	359
Bronze Thieves.....	234
Buffers and Polishers, Health of.....	50
Business Situation, The.....	339
<b>C.</b>	
Carbon Tetrachloride.....	49
Carbon Bisulphide in Silver Solutions.....	41
*Casting of Artistic Work.....	35
*Casting of Flowers, Leaves, etc.....	102
*Casting Hard and Soft Metals, Molds for.....	109
*Casting, Largest Bronze Gear.....	202
*Casting Machine.....	207
*Castings, Brass.....	36
Castings, Price of Brass.....	51
Castings, Tinning and Galvanizing Iron.....	172
Cire Perdue Process, More on the.....	295
Cire Perdue Process, A Contribution to the.....	236

	Page.
*Cire Perdue Work in France and Its History in Our Own Country.....	195
Clay Products, Vitrified.....	47
Cleaner for Small Work.....	105
Cleaning and Pickling Copper-Alloy Castings.....	22, 56
*Cleaning Compound with the Electric Current.....	271
Cleaning Solution, Ammonia in the Soap Compound.....	105
Coating Iron with Brass.....	145
Coating Lace with Metal.....	76
*Coiling Pipes or Tubes, Means for.....	305
Coke: Its Manufacture and Application to Foundry Purposes.....	69
*Cooling and Finishing Metal Coated Articles, Apparatus for.....	239
Copper.....	338
Copper a Brown Color, Giving.....	312
Copper, Alaska.....	331
Copper, A Valuable Monograph on Lake versus Electrolytic.....	147
Copper Famine, Is There Danger of a.....	82
Copper Imports and Exports.....	147
Copper in Turkestan.....	102
Copper, Lake versus Electrolytic.....	1, 43, 71, 103, 138
Copper Leads in Value.....	2
*Copper Nail, A Hand Made.....	234
Copper Prices, Accurate.....	243
Copper Prices in Birmingham, Eng.....	299
*Copper, Recovery of, from Scrap.....	99
Copper, Spelter, and Lead Production in U. S. for 1906.....	233
*Core Machine, The Diamond.....	241
*Core Machine, The Hammer.....	73
*Core Machines, Care of.....	73
*Core Oven, A Portable.....	143
*Core, Wire Bar Mold.....	330
<b>Correspondence:</b>	
Anodes, Silverite.....	276, 308
Brass Foundry, Output of a.....	372
Buffers and Polishers, Health of.....	84
Castings, Spongy.....	308
Cire Perdue, Barye Used Sand as Well as.....	340
Cire Perdue, Early.....	244
Cleaner, Electric.....	180
Copper, Sheet, for Roofing, Cornice and Leaders.....	308
Cyanide of Copper Solutions.....	372
Deposition of Metals on Non-Conducting Surfaces.....	148
Finish, Acid Green, on Copper and Brass.....	52
Friction Clutches, Aluminum.....	180
Furnaces, Electric, for the Foundry.....	180
Nickel and Its Production, Black.....	18
Noveau and Polychrome, Meaning of.....	276
Preventing Wax from Shrinking.....	52
Refinishing Ormolu Gilt Ware.....	244, 276
Royal Copper by the Saltpetre Process.....	84
Silver, Annealing.....	18
Silver, Effect of Melting Sterling.....	340
Silver, Recovering.....	116
Solution, Acid Copper.....	180
Spotting Out.....	212
Tinning Tacks.....	148
Cost Keeping in the Rolling Mill.....	77
Cost System of a Cable Shop.....	198
*Crucible Tongs.....	362
*Crucibles, Annealing.....	293
*Crusher and Pulverizer, The Monarch Combined.....	113
*Crusher and Pulverizer, The Monnette.....	303
<b>D.</b>	
Depositing Brass upon Small Articles.....	366
Deposition of Metals on Non-Conducting Surfaces.....	76
Detinning, Method of.....	68
Detinning, Process of.....	264
*Detinning Tin Scrap.....	303
Diamond Pointed Tools.....	266, 274
Diamond Splitting in Amsterdam.....	266
Dip, Useful Receipt for Bronze.....	236
Dipping Aluminum.....	6
Direct Casting with Ingot Metal.....	307
Distilling Metals.....	230
Double Nickel Salts, Making.....	302
*Drill Presses, Single and Multiple.....	177
Dross, Reducing Tin and Lead.....	74

## A Millett Core Oven

### PORTABLE OR STATIONARY

Enables you to produce the largest number of Perfect Cores at the least cost

If you are losing more castings than you should, look into your core oven facilities. The Millett is the one oven that will bear investigation. All the leading foundries at home and abroad use them. The double shelf arrangement is exclusively Millett—it's patented. Then again our oven is efficient. Cores baked in the Millett always come out right. Take a few minutes to look up the Millett oven.

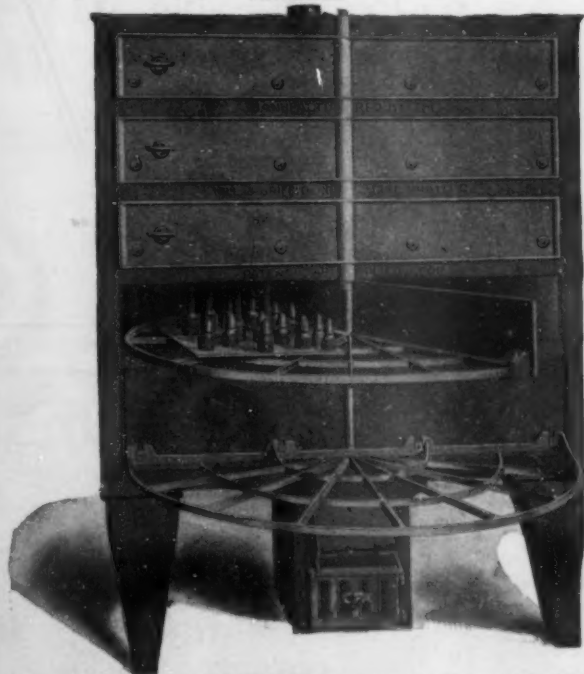

*Let Us Send You a List of Users*

SOLE MANUFACTURERS

**THE HILL & GRIFFITH CO., Cincinnati, Ohio, U. S. A.**  
Also Manufacturers of Graphite, Plumbago, Foundry Supplies and Equipments.

## We Make Nothing

but brass foundry equipment and our whole effort is toward making it modern.

The Improved Rib Flask is only one of our products. It's the standard with the foundries throughout the country who have the reputation of making the finest castings; it's the molders' choice because it's light, yet stronger and more rigid than the old style. It's accurate, and absolutely interchangeable. Break away from the heavy antiquated flask, and use the Improved Rib.

ECONOMY MOULDING PLATES outlast wood boards. Ask for circular. Catalog 12-B.

# THE PECK AUTOMATIC DROP LIFTER

## WHY DO YOU CONTINUE TO USE THOSE HAND AND FOOT DROPS?

By placing the Peck Automatic Drop Lifter over them, where your lifting pulleys now are, you can get better work and more of it and it does not require skilled stampers to operate them, nor is it as fatiguing. Anyone capable of working power blanking presses can operate the Peck Lifter. You have substituted power presses for the old-fashioned hand screw presses and foot presses. Then why not, for the same reason, adopt the Peck Automatic Lifter? The list below shows what we have done in one line of work. There are many other lines. Your line can use them to as good advantage.

### *Partial List of German Silver Manufacturers Using the Peck Automatic Drop Lifter.*

R. Wallace & Sons Mfg. Co. (125 lifters), Wallingford, Conn.

## Our New Patent Revolving Plating Apparatus for Automatic Plating in Nickel, Copper, Zinc, Brass or Bronze Solutions

Apparatus Ready to Receive or Discharge Work.

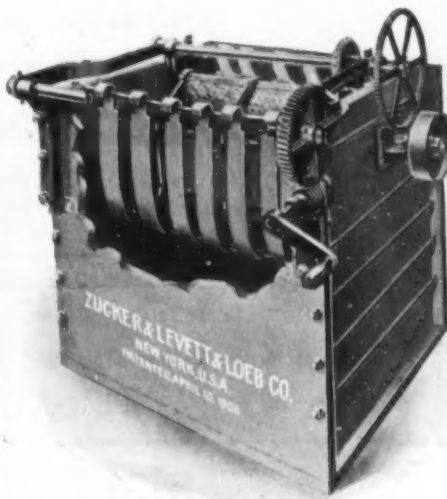

This apparatus consists of a wooden tank 32 x 32 x 36 with a revolving wooden hexagonal cylinder.

The rotation of the cylinder polishes the work and it comes out bright and does not require buffing. A feature of the apparatus is the crank and gear by which the cylinder is readily raised and lowered in the solution.

The apparatus is sold with or without solution or anodes. Solution required, 120 gallons.

We manufacture curved anodes with cast hook to insure good working. 12 are used in each tank.

For further particulars and net prices apply to

Apparatus in Working Position.
